

SAFETY POLICY

The Board and Management of CISC Pty Ltd, operating as The Construction Training Centre (CTC), is a resource hub for the building and construction industry and is dedicated to building skill solutions.

In cooperation with our training partners and tenants, we commit to providing a workplace which employs best practice in all areas of workplace health and safety and to the proper management of the work environment in order to protect our workers, students, contractors, visitors and members of the general public.

CTC will achieve this by:

- Committing to establishing and regularly reviewing measurable Occupational Health & Safety Objectives & Targets through the Management Review process in order to achieve continual improvement through the elimination of work related injuries and illnesses.
- Encouraging and maintaining a 'Don't Walk By' culture that requires each and every CTC staff member to respond to and inform the CTC team any Occupational Health and Safety issues, regardless of whether it forms part of their delegation;
- Ensuring compliance with all statutory, legislative, regulatory and other requirements;
- Increasing worker knowledge and awareness of health and wellbeing issues and lifestyle behaviours and facilitating active participation in a range of activities under CTC's Healthy Inside & Out initiative;
- Providing as appropriate, employees, contractors, tenants and customers with regular information, instruction, training and supervision to ensure their safety;
- Providing safe plant and systems of work utilising CTC's SafeStart framework;
- Providing written procedures and instructions, which are reviewed regularly, to ensure safe systems of work are implemented and maintained.
- Maintaining, monitoring, reviewing, auditing and continually improvement the Safety Management System consistent with the certification requirements of AS/NZS4801 and OHSAS 18001.
